The news dealer, character of the play Hilda Furacao is the **biggest revelation at theater** in Minas Gerais. For those who follow Freita's career, this is not big news. The artist - dancer, actor and singer - has been on stage since age 9 when he was debuted in Dirceu pereira's TV show.

From a humble family, Hudson Freitas has been devoted to dance since he was five. Two years later his neighbor Adalgisa showed him the fascinating world of theater. At age 14, he auditioned at the Arts Palace and received a scholarship to study classic and modern dance. He then began to study music and drama, and was featured in "Carmina Burana" and "Messiah" Concerts. At age 15, he began taking business management course at Sebrae witch gave him the opportunity to learn English, Spanish and some German. Hudson is like this, able to absorb everything related to art and studies. The of all is that whatever he does, he does very well.
